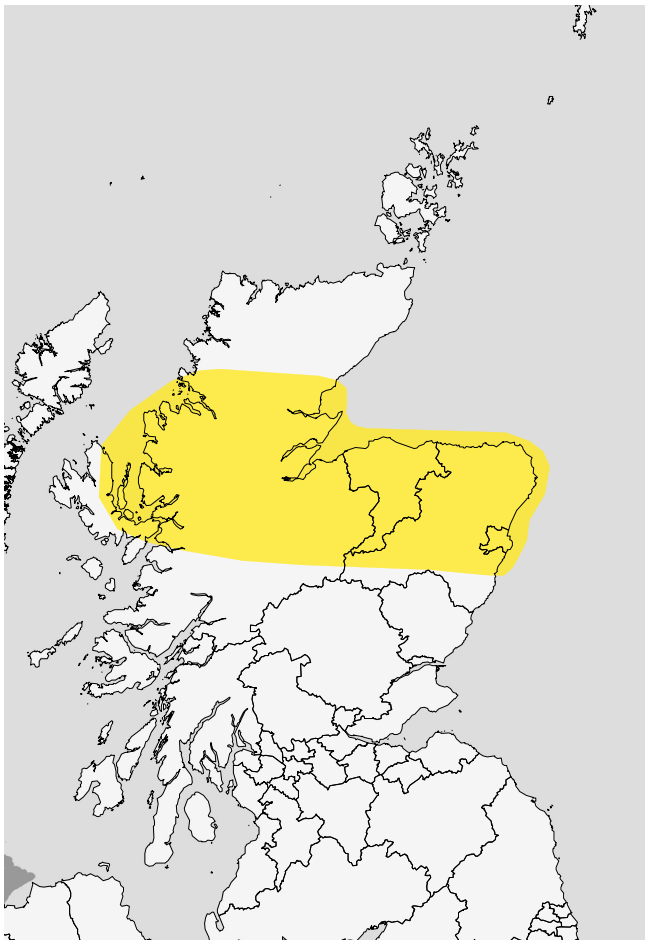
Yellow warning
Ice

Between
19:40 Mon 25 Dec 2023 and
10:00 Tue 26 Dec 2023



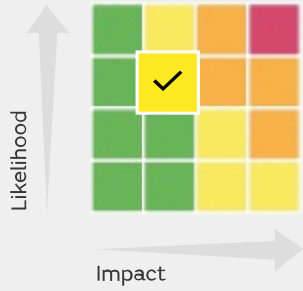
Ice is likely to develop as snow clears on Christmas Day night leading to some difficult travelling conditions

What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

A mixture of rain, sleet and snow that developed during the afternoon of Christmas Day will clear eastward through the coming night. Skies will clear allowing ice to develop on untreated surfaces. There will also be some wintry showers developing later in the night which may also lead to some patchy ice developing.



Medium likelihood of low impacts

Issued at 19:40 Mon 25 Dec, 2023
